

ReactJs – Hands on Lab 1

Creating the React Project

The screenshot shows the Visual Studio Code interface with a file explorer on the left displaying the project structure for 'myfirstreact'. The main editor area shows the terminal output of the 'create-react-app myfirstreact' command. The terminal text is as follows:

```
PS C:\Users\shari\OneDrive\Desktop\Digital-Nurture-JavaFE-main\ReactJS_HOL_Working_Directory> npx create-react-app myfirstreact
To address issues that do not require attention, run:
  npm audit fix

To address all issues (including breaking changes), run:
  npm audit fix --force

Run 'npm audit' for details.

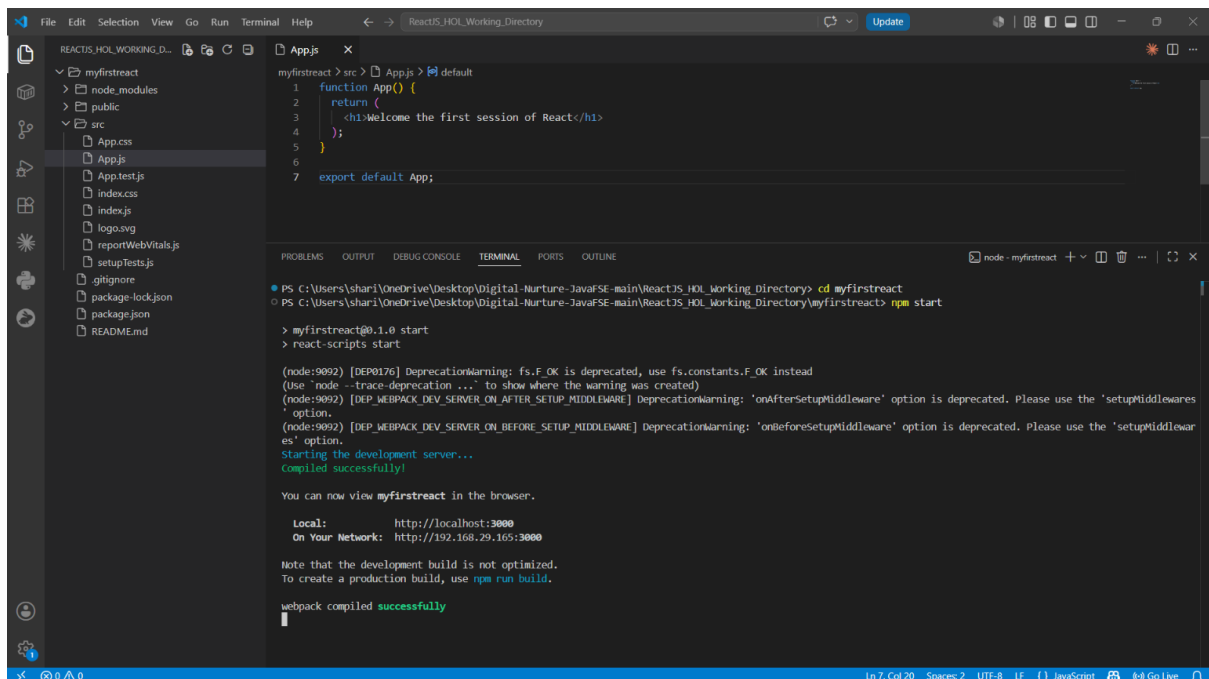

Success! Created myfirstreact at C:\Users\shari\OneDrive\Desktop\Digital-Nurture-JavaFE-main\ReactJS_HOL_Working_Directory\myfirstreact
Inside that directory, you can run several commands:

  npm start
    Starts the development server.

  npm run build
    Bundles the app into static files for production.

  npm test
    Starts the test runner.
```

Editing App.js and Starting the Server

The screenshot shows the Visual Studio Code interface with the 'App.js' file open in the editor. The file content is as follows:

```
1 function App() {
2   return (
3     <h1>Welcome the first session of React</h1>
4   );
5 }
6
7 export default App;
```

The terminal output shows the command 'npm start' being executed, which starts the development server. The terminal text is as follows:

```
PS C:\Users\shari\OneDrive\Desktop\Digital-Nurture-JavaFE-main\ReactJS_HOL_Working_Directory> cd myfirstreact
PS C:\Users\shari\OneDrive\Desktop\Digital-Nurture-JavaFE-main\ReactJS_HOL_Working_Directory\myfirstreact> npm start

> myfirstreact@0.1.0 start
> react-scripts start

(node:9092) [DEP0176] DeprecationWarning: fs.F_OK is deprecated, use fs.constants.F_OK instead
(Use 'node --trace-deprecation ...' to show where the warning was created)
(node:9092) [DEP_WEBPACK_DEV_SERVER_ON_AFTER_SETUP_MIDDLEWARE] DeprecationWarning: 'onAfterSetupMiddleware' option is deprecated. Please use the 'setupMiddlewares' option.
(node:9092) [DEP_WEBPACK_DEV_SERVER_ON_BEFORE_SETUP_MIDDLEWARE] DeprecationWarning: 'onBeforeSetupMiddleware' option is deprecated. Please use the 'setupMiddlewares' option.
Starting the development server...
Compiled successfully!

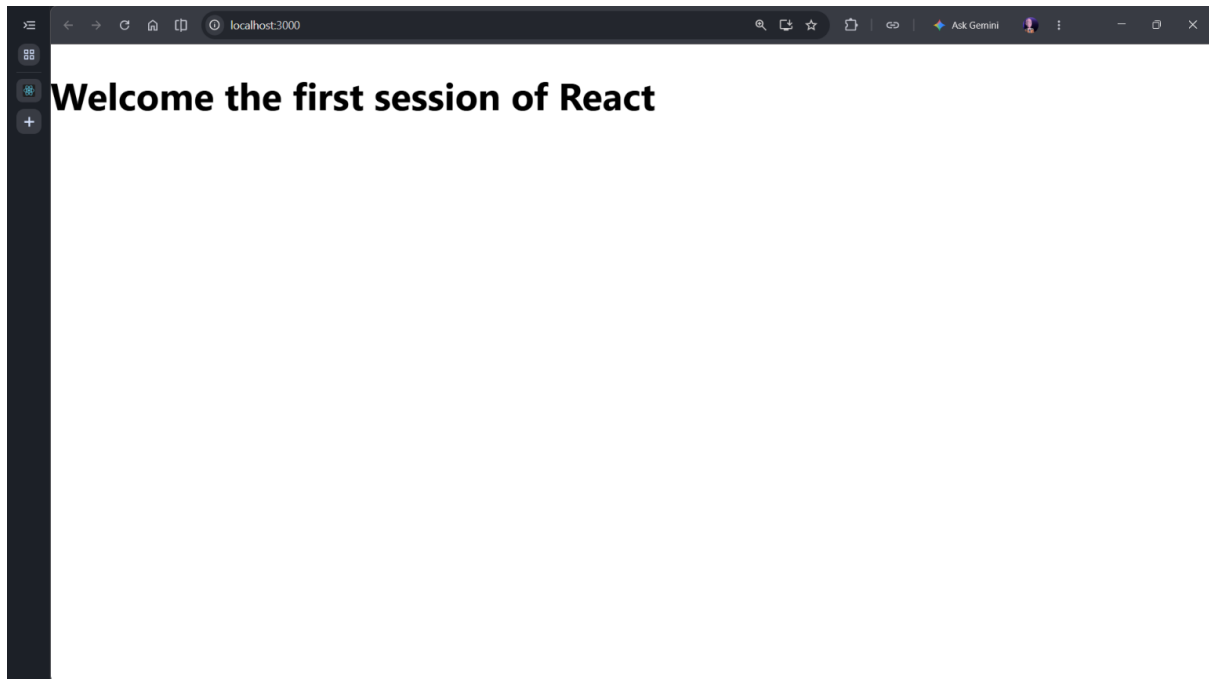

You can now view myfirstreact in the browser.

Local:      http://localhost:3000
On Your Network: http://192.168.29.165:3000

Note that the development build is not optimized.
To create a production build, use npm run build.

webpack compiled successfully
```

OUTPUT

RESULT

The React application was created successfully and displayed the heading “welcome to the first session of React”
